Come witness the power of youth using creativity to combat climate change. Through art, activism, videography and voice, young people across the globe are taking action to protect the planet.

Following a keynote address, we invite COP23 attendees to enjoy an interactive discussion between young people from Fiji, India, Morocco, United States and Costa Rica who have used various mediums and innovative means to raise awareness and take climate action.

COP23

Young and Future Generations Day

9 November (Thursday)

@ The Climate Action Studio

18:15 - 19:45
